Fifteen year old Matt Bergin is staying in Glastonbury for Christmas with his cousins, Luke and Annie Martin. Matt feels drawn to Glastonbury Tor, and St Michael's Tower, which crowns its summit. The cousins learn the secret of Glaston Tor and find themselves propelled back in time to 1940s France and the Second World War. They are given a mission by an enigmatic stranger, who asks them to help a young German couple and their son escape from wartime France. But the fearsome Gestapo are on their trail. Matt and his cousins will discover that their destinies are intimately linked to this family, and to a mysterious young stranger who will stop at nothing to learn their secret.

What others say about this ebook:

Review 1:

This is a fabulous read and perfect for teenage boys (and girls) who like an action-packed story that is well-written and realistic. This book takes you into the tense world of Nazi-occupied Europe and teaches what it was like for those trying to escape it, and those trying to survive it by keeping their mouths shut against the new order. The heroes of the story are teenagers (2 boys and a girl and her dog) who learn the value of every human life, even those they disagree with, while trying to help a young family escape out of Nazi-occupied France in 1940. The story, however, starts out in England in the modern world, but the teens stumble upon a time-travel portal and are brought back in time and given a daring mission.

The gripping tale not only gives a great history lesson of what World War II was like, it teaches the value of prayer when you have nothing else to rely on (without preaching religion), shows the beauty of strong family and human relations, promotes virtues of trust, loyalty, perseverance and even laying down one's life for friends. Surely these stories of bravery are real in the annals of history but rarely told in a way that engages younger people. At the end of the book, you're on the edge of your seat and wanting more. It is obvious that another book is coming to pick up where the story left off. Much mystery and questions are begging to be answered, especially the mystery of a miracle-bearing wooden "creche" that has touched each of the characters in some way and was possibly crafted by St. Joseph.

I highly recommend this book, and believe every school library should have it on their shelves. Homeschool groups, too, will love this book because it is teeming with valuable lessons and good messages that young people need to learn again. You will not be disappointed.

Review 2:

My husband wrote the following review:

I bought the book for my three grandchildren (13-yr.-old twin girls and a 15-yr.-old boy). I thought it advisable to read it myself and hoped it would make a profound impact on the three. To my knowledge, they all have not yet finished it. I can, however, give you my impression.

I am 79 years old and very much enjoyed the characters and the plot. The subtle mention of Catholicism and the praying of the rosary was artfully included in the story without becoming a major part of the plot. The young people, though daring and resourceful, relied on the help and the protection of Our Lord and His Mother. The urging of Michael the Archangel, who appeared at the beginning, and otherwise was influential in their decision to enter the adventure of rescuing the young couple was very well done.

I highly recommend this book for all young people and older folks as well.
