What others say about this ebook:

**Review 1:**

This is eight audio CDs of a slightly varying drone sound. It does not differ for each chakra meditation although it still has variation. There is almost no guided talk...maybe just a few sentences per hour. I despise background hums like furnaces and air conditioners that disturb the natural rhythms of the brain and suspect this audio also lowers the natural functioning of the mind. I felt more irritation than relaxation by listening.

Notice that most of the five star reviews came at product release time...which blatantly hints that they were faked. Do you want to support someone who uses lying to sell a product?

**Review 3:**

I have also found the instructions not to be helpful. They are 'love and lighty' and assume a glowing, positive approach. I am suffering and the world around me is suffering and this music does not address that. Maybe it isn't supposed to. One cannot simply 'decide' to open one's heart, in my experience, and transform the universe-- not in the depths of suffering. It is more of a process and involves the deeper colors, which seem to be absent in this presentation. I will keep trying with it, but tentatively have decided to say that the emperor has no clothes, at least from my view. But that is tentative, and I have only listened a short time. I also feel it is badly organized. When one wants to address one chakra, for instance, the information, music, is not all in one place. I have not yet figured out how it is organized. I may change this review as I keep trying.

**Review 4:**

As a spiritual channel that works with the universal streams of consciousness, I'm picky about what I put into my field. I don't just throw any music into my CD player and hit play...especially if I'm going into an open meditative state. So, when I was recently gifted this amazing transformational tool, it was like opening a box of chocolates and not knowing which yummy morsel to taste first. The cards, the music, the guidebook. Wow! I found myself melding with the harmonics of an Angelic blanket of sound that fell over me in wave after wave of harmonic bliss. I can only describe David Ison as a "Sound Weaver" of monumental skill that has clearly been perfected by his expertise in both science and spirit, weaving a fabric of music and melody that one can align easily with to level up their entire blueprint and attune their chakras quickly. I highly recommend the Chakra Sound System as a 'must have' in your spiritual toolbox if you are serious about reaching the highest potential available to you on your journey to knowing who you are at every level. Ison is definitely an unsung musical master that deserves to be a household name by now...so, here I am, doing my part to see that happen. Enjoy!!

**Review 5:**

I have a lot of meditation CD's and enjoy meditating often but this sound system has been by far the best. I listen to it night and day and it brings me serenity before work and before sleep. I love the content of the book as well. I would suggest this product to anyone who wants a little peace in their life.
